7621 - LAB 15

Instructions

1. Access the auto-grader at https://c200.luddy.indiana.edu

2. Please write the code for the problems in python language

3. The code should be readable with variables named meaningfully

4. Plagiarism is unacceptable and we have ways to find it, so do not do it

5. Don't change the function signature (name of the function and number and types of arguments) provided in this file.

6. Once you pass all the tests on the auto grader, show your work to the teaching assistant

Problem

Question

Below is the code related to the Birthday Paradox. Run the code multiple times and tell your observation to TA.
Google Colab
